EXPERIENCE

Introduction to Computing Course (COGS3), University of California San Diego, La Jolla, CA

Student | August 2022 - December 2022

- Assembled websites using HTML, CSS, and JS to create a product that's user responsive and styled attractively to display its content effectively.
- Designed a prototype of a health app using Figma to create a product that's user responsive and executes a sequence of actions associated with user input to allow users to interact with the app's contents.

University Interscholastic League, Hendrickson High School, Austin, TX

Computer Applications Competitor | October 2018 - December 2020

- Instructed peers on how to effectively use Microsoft Applications for an improved performance as a team at tournaments.
- Solved a multitude of tasks utilizing Microsoft Applications to create an effective product within a short time period at competitions.

Hendrickson Debate Team, Hendrickson High School, Austin, TX

Foreign Policy Debater and Foreign Policy Novice Coach | August 2016 - May 2019

- Compiled evidence for my team's arguments through the addition of field expert's articles and other informative texts to form a strong team database.
 - Coached novice level Foreign Policy debaters in parts of an argument, researching evidence, and etiquette in debates to improve upon our Head Coach's training.
-
